MULTI-SEAT Plans: Need dozens or hundreds of seats on a custom plan? No Problem. Tell us how many seats, which files you need, & estimated monthly searches per file. All our clients can use the online interface to run EIN lookups from their own desktop regardless of location. However we also offer a proprietary "EIN Batch-Match" service geared specifically for clients with high volume needs.

"EIN Batch-Match" Service – We Do All The Work

You supply us with an input file (up to one million records) and our EIN Batch-Match service quickly and accurately appends EINs and business data. Most EIN / SSN BATCH Matching processing can take place in as little as 24 hours. Our comprehensive and ever-growing database of over 16.8 million tax ID and business records allow us to provide you with much more than just an EIN match. How? email your MS EXCEL or CSV file to robin@realsearch.com & Nirav@libertydata.net > then give us a call at 800-299-8280. Items appended can include:

- EIN or Tax ID Number
- NAICS or SIC Code
- Phone and Fax Numbers (where available)
- Updated NCOA – Cass Certified Addresses
- Year Started
- Number Employees

- Sales Size and Revenue
- Plus more – please ask us

FREE Batch Match analysis – Simply send us your Excel data file – we will crunch it, analyse and call you with results and a proposal that works for you. You get all your data corrected, appended, if missing, and enhanced with updated addresses (optional) and enhanced Data Points.

DATA INTEGRATION: XML & API Easy install into your own servers, website or software

Seamlessly API Data access our massive EIN database from your own software applications. Our XML-based web service technology allows you to integrate real-time EIN data directly into your applications.

We will provide your IT department with all the necessary documentation and specifications in order for your software application to either locate or verify a Tax ID. Your application retrieves the EIN data from our database in real-time and returns it to your user. Both forward searches (search by company name and address) and reverse searches (search by EIN) are available.
